Subject Disposal of Low Level  
Radioactive Waste

Copy to Mr. J. F. Frost

Dear Don

As promised in our phone conversation of this morning I am enclosing a copy of the contract between Chem-Nuclear Systems and Union Carbide that was made on November 20, 1985 (Contract No. N-85-060). The "Exhibit" (Brokerage and Packaging Service) attached to the contract will have to be amended to apply to the low level radioactive waste we have collected for disposal.

[Under II B (Company shall provide)]

(4.) Use my name as a "Person designated by UCC to be responsible for coordination of the packaging operations." (I have a consulting agreement with UCC).

(5. & 6.) will not apply because the present shipment will go to Barnwell, SC. I have obtained the necessary South Carolina Transport Permit (No. 0226-31-86-X).

[Under IV Compensation]

It will be necessary for you to negotiate a satisfactory price. The request for a contract should be addressed to Mr. Gary Benda, Marketing and Contracts, Chem-Nuclear Systems, Inc., 220 Stone Ridge Drive, Columbia, SC 29210.

Attachment I (To the Brokerage Section)

1. CNSI will provide services as described in Item 1, Scope, for the following materials

a. Twenty (20) 55-gallon drums of slag and soil contaminated with traces of natural uranium and thorium - Estimated activity 2.4 mCi.

b. 250 pounds of metallurgical samples consisting of solid slag, ore, and ferroalloys contaminated with natural uranium or thorium - Estimated activity 0.1 mCi.

With the sale of the Niagara Facilities to Stratcor we are anxious to have these materials removed from the site.

I want to thank you in advance for your help in procuring the contract.

Sincerely,

A handwritten signature in cursive script, appearing to read "Donald J. Hansen".

D. J. Hansen
